

Rocket® Mainstar® HSM Reporter/Manager

Gain insight into DFSMSHsm

Rocket® Mainstar® HSM Reporter/Manager gathers critical information from the DFSMSHsm environment and creates an interactive display with customizable reporting capabilities so you can quickly identify and correct error conditions in the environment. With increased DFSMSHsm data visibility, administrators can proactively manage the DFSMSHsm environment, freeing up time and resources needed to complete other vital tasks and projects.

Benefits/Features

Maintain DFSMSHsm health

Automate reporting with pertinent information about HSM functions in a straightforward, interactive format.

Automate analysis and reporting

Automatically run saved filter patterns at scheduled intervals to have information you need ready and available for analysis.

Report on and analyze DFSMSHsm

Know what DFSMSHsm is doing before critical issues arise with reporting and analysis.

Identify DFSMSHsm trends

Creates easy-to-understand trending and historical charts and graphs from specified data.

Tune DFSMSHsm performance

Estimate successful/unsuccessful DFSMSHsm work to tune and manage DFSMSHsm and its data for improved cost savings.

Submit DFSMSHsm commands

Submit DFSMSHsm commands with assistance for a faster response to selected actions.

With Rocket HSM Reporter/Manager you can:

Increase productivity

With increased DFSMSHsm data visibility, administrators can proactively manage DFSMSHsm, freeing time and resources to complete other vital tasks and projects.

Empower technical staff

Provide technical staff the ability to perform Control Data Set (CDS) administration and maintenance while keeping the DFSMSHsm started task active.

Reduce costs

Reduce and offset the need for future upgrades and purchases by better tuning and managing DFSMSHsm and its data.

Enable next-gen staff

Make it easy to research with reports and options for drill-down views for more information to gain insight into DFSMSHsm without the learning curve.

Simplify DFSMSHsm management

Use simple SQL statements and Boolean logic to create customized reports.

Reduce errors and risk

Alert administrators about incomplete DFSMSHsm automatic tasks and alleviate CDS corruption due to human error.

The future won't wait—modernize today.
